Simplify Data Collection With Custom Forms

Enable your home care staff to create tailored forms, collect client data, and automate processes with our custom form builder. No coding is required!

Capturing Data Has Never Been Easier

CareSmartz360's mobile-friendly Custom Forms combines a robust catalog of features with an easy-to-use custom form builder! You can choose from countless form templates or create forms specific to your needs. It also allows for data validation and conditional display logic. Form templates can be created and used for Client Assessments or any other forms that an Agency uses for their clients.

HIPAA Compliant Forms

Eliminate messy paperwork & reduce security risks with easy HIPAA-compliant data collection.

Drag and Drop

Build no-code, custom forms in minutes with a user-friendly, drag-and-drop builder.

Conditional Display Logic

Add smart fields to your forms that react to the user's input to personalize the form experience.

Electronic Signatures

Easily capture client's and your team's electronic signatures from any device.

Fully Integrated

Avoid double data entry by having the information from the client profile auto-populate to forms.

User Permissions

Minimize errors & maintain a clutter-free experience by configuring which users can create & access forms

#1 Home care management software to transform the way you provide care.
