

Powerful Home Care Scheduling at Your Fingertips!

Eliminate the pain of manual scheduling from your scheduler's life while ensuring safer care for clients.

Spend More Time With Clients And Less Time Scheduling

CareSmartz360 makes schedule management efficient and pain-free – no matter the size of your home care business.

Our robust scheduling software makes it easy for your home care agency staff to manage your entire on-field workforce easily, with availability and skills matching, costing, scheduling, route direction, and on-the-job guidance, all in one platform.

Empower your caregivers to never miss a job, and increase customer satisfaction while simplifying complex scheduling!

1

Streamline, Automate, and Optimize Scheduling

Select caregivers recommended with the portal's built-in intelligence to guarantee that the right caregiver shows up at the right time and location for the right client.

2

Eliminate Missed Appointments

Deliver appointment details and updates directly to caregivers' phones so there are no missed visits.

3

Minimize Operational Costs

Reduce overhead premiums by reducing travel time, clustering nearby visits, eliminating missed appointments due to human error, and stamping out paperwork.

4

Make Informed Decisions

Gain insight into caregiver activities, expenses, overtime, and more to understand the true impact of your scheduling efforts and demonstrate your impact on the business.

5

Request Client Visits

Enable caregivers to spot available and open shifts easily, respond as available, not-available, or demand more info, and request agencies to assign open shifts.

Robust Scheduling Software

Streamline schedule management with automated scheduling and workforce optimization tools.

Color-Coded Calendar

From the calendar, one can view the schedule of specific clients & caregivers by Day, Week, and Month. The color blocks quickly draw attention to open shifts and no-shows.

Drag & Drop Functionality

Save time, make quick schedule adjustments, and assign shifts quickly using the easy-to-use drag and drop interface.

Build Recurring Shifts at Once

Easily specify the duration of the recurrence - Daily, Weekly, Monthly, and assign a different care worker to each visit. Save yourself tons of time.

Choose the Best Fit Caregiver

CareSmartz360 recommends the best caregiver for the client based on preferences, skills, availability, over time, distance and more.

Quick Schedule

Select caregivers recommended with the portal's built-in intelligence and assign the open shift to one of them or send alerts to other caregivers of choice.

Real-Time Alerts

Receive real-time alerts for caregivers who are late, have no shows, or are approaching overtime. Remind Caregivers of shifts via text, email, or mobile app notifications.

Keep Everyone In The Loop

Portals

Allow agency staff, caregivers, and clients to access important caregiver and client information like schedule or care plans in real-time.

Electronic Visit Verification

Use GPS-enabled mobile app and smart telephony features to stay compliant and gain insight into caregiver activity, no-shows, etc.

Mobile Apps

With the CareSmartz360 Mobile apps, your care team has access to real-time schedules, route details, time tracking, patient data, and more on the go!

I first approached CareSmartz360 as my home health care company was getting off the ground. I was looking for a complete solution that was scalable as we weren't in a position to pay for a giant one-time purchase of software. CareSmartz360 provided a custom, high-quality solution that helped take the effort out of scheduling, document management, and even invoicing and payroll!

Mathiew Newport

President & CEO

True Companion Care

#1 Home care management software to transform the way you provide care.
