# Multilingual Caregiver App

This intuitive interface coupled with advanced scheduling features empowers caregivers to focus less on administrative tasks and more on delivering quality care.

A Caregiver's Personal Organizer

- Multilingual Support
- Real-Time Communication
- Electronic Visit Verification
- View Care Plans On The Go
- GPS-Based Clock-In/Clock-Out
- Shift Tasks & Shift Status
- Offline Mode & Alerts

One App, Multiple Roles

The GPS-enabled CareSmartz360+ Caregiver App benefits in-home providers in the field moving to different clients to deliver care. It is one dashboard for caregivers to communicate in their preferred language and access schedule information, routing details, time tracking, and care plans in real-time.

Available for Android and iOS users, the app is integrated with several caregiver-friendly utilities and features.

Multilingual Support

- Easy understanding for native caregivers
- Effortless communication
- Coherent workflow management
- Easy access to all in-app features
- Maximized work productivity

Efficient Team Communication

- Real-time schedule & shift updates
- Quick access to client details and care plans
- Caregivers can easily clock-in and clock-out
- Offline mode to improve data synchronization
- Upload & record compliance documents

Shift & Calendar Updates

- View assigned, open & available shifts
- Accept or deny any specific shifts
- Mark the status as available, unavailable, etc
- Receive information from agencies in real-time
- Leave notes for shift task updates

Additional Features

- Record expenses & apply for reimbursement
- Upload & record compliance documents
- Record injury details while on a shift
- Find directions to the client's location
- Protect caregivers/clients against COVID exposure

#1 Home care management software to transform the way you provide care.
