

The Caregiver Portal

Empower your caregivers to deliver informed, quality care.

A Solution to Make Care Easier

The caregiver portal offers better control, flexibility, and ease for both caregivers and agency staff.

Mobile Access

It is easily accessible from any device, including mobiles, providing necessary information to caregivers on the go!

Improved Connection

The Caregiver Portal keeps your office staff and the caregivers connected and essential information top of mind.

Deliver Better Care

Eliminate administrative tasks and paper time stamps, enabling caregivers to spend more quality time with clients ensuring their happiness.

Stay Focused on What Matters

The Caregiver Portal keeps your office staff focused by reducing the number of disruptive phone calls from the caregivers.

Everything You Need in a Single Space

The caregiver portal, which is seamlessly integrated with CareSmartz360 home care software, allows caregivers to securely access client information & care plans, verify visits at the point of care, communicate in real-time, view scheduled tasks, and get directions to client homes anytime, anywhere.

When caregivers log on to their Personalized Portal, they can:

-  View upcoming schedule by day, week, or month
-  Access available and open shifts
-  Select and request to assign open shifts
-  Respond as available, not-available, or need more info
-  Clock-in and clock-out visit timings
-  View pre-defined tasks as per the care plan
-  Add notes and comments after care delivery
-  View feedback from a client or their family members

“

Way better than our old software. Ease of scheduling, adding clients, adding caregivers and editing information. The overall “feel” of how the program looks makes me excited to use it as opposed to other software's with an older, boring look.

Joshua Valdez

Administrator

Saving Grace Private Home Care LLC

#1 Home care management software to transform the way you provide care.

WHY CareSmartz360?

- Fully open & free API for interoperability
