Advanced Custom Reporting and Personalized Dashboards

CareSmartz360 is a powerful solution to all your reporting needs. It allows home care businesses to create more accurate reports significantly faster and expand your reporting possibilities by pulling in even more data from the platform. It further gives more flexibility to efficiently identify key trends, flag critical issues, predict cost savings, manage staffing needs, and ultimately make informed decisions and deliver better care.

Real-Time Self-Service Analytics

Get intelligent business insights into your agency's operations and optimize them for superior care delivery and outcomes.

Generate Robust Customized Reports

Create reports that can be customized to the format of your choice. Save & share these reports with clients or users by exporting them as a PDF, CSV, or other formats.
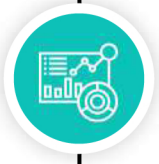

Schedule Reports by Week/Month/Year

You can program a scheduled export, which will generate a report automatically based on the frequency you set.

Ensure Data Confidentiality

Set access rights to control who can see your report and to what extent.

Highly Personalized Dashboard

Save time by keeping track of important information by accessing a comprehensive view of business metrics at a glance without having to toggle between multiple screens.

Save Time & Eliminate Paperwork

Eradicate the need for manual reporting and paper management.

#1 Home care management software to transform the way you provide care.
